Single Tamper Resistant Wall Enclosure with One Interchangeable Module Supports up to 16 Fibres

V3.4

Description

Our tamper resistant wall enclosures can be assembled to fit any installation requirements, offering a wide range of flexibility to the end user. You can choose to have the enclosure pre-loaded with adaptors only or fully loaded with pigtails to save valuable time on site. The standard enclosure includes the newly designed speedway spool to protect the bend radius of each fibre, cable gland for incoming fibre and splice holders.

Features/Benefits

- ▶ Cable management kit included
- ▶ Interchangeable modular adaptor plate (please see page 3)
- ▶ Fitted with security screws
- ▶ Single or double module versions available
- ▶ Extended cover to restrict access to exiting connections
- ▶ Strength member tie position
- ▶ Suitable for pre-terminated cables or splicing
- ▶ IP20

Applications

- ▶ Internal application
- ▶ Data Centre or telecommunications networks
- ▶ For use in multi dwelling units or demarcation points in a network
