Tools and installation aids for unilan® Modules and Patch Panel

Assembly pliers for RJ45 connectors

Product information

Termination Tool for assembly the Module PS-GG45

For assembly the PS-GG45 module with connecting the wires in the same time **Application**

Assembly pliers RJ45

For a standardised assembly of the RJ45 connectors for the connector covers IP 67 (article 185720)

Wiring aid for unilan® patch panel

The two angled brackets are fixed to the 19" uprights of the rack or cabinet so that the patch panel is presented at an angle of $45\ degrees$.

Termination of cables is made much easier and more comfortable with the panel held in this position.
