Frost protection cable

Code	EFPPH2
GTIN	6410081684220
ENumber	
Name	Frost protection cable
	Frost protection cable 2 m, 20 W
Description	The PLUG'n HEAT frost protection cable is made of a self-regulating heating cable, so no thermostat is needed. It is safe to use as there is no danger of overheating. The heating cable is covered with a sheath of fluoropolymer, which makes it suitable for use inside drinking water pipes. _x000D_ _x000D_ TECHNICAL SPECIFICATION _x000D_ 230 V, earthed plug. A 30 mA residual current circuit breaker (RCCB) is recommended to be used with the cables. _x000D_
Vendor	Ensto Finland Oy

ETIM

Application:	Other
Width:	7.7 mm
Colour:	Blue
Length:	2 m
Height:	5.3 mm
Nominal voltage:	230 V
Cable type:	Self-limiting parallel
Max. hold temperature:	65 °C
Heating capacity:	10 W/m
Screening:	None

Packaging

Default package

Unit:	PCS
Size:	1
Weight (net):	0.55 kg

Pallet package

Unit:	PCS
Size:	120
