

Distribution boxes

Distribution box, single-phase, continuous with bus control, four single-phase outlets with bus control

The NCJDM545.G distribution box is designed for the cabling of bus-controlled lighting systems. It has one single-phase inlet and four single-phase outlets with five-pole couplers (L, N, E, a+, b-).

Product code	GTIN	Description	Weight	Package
NCJDM545.G	6418677683688	Four single-phase outlets with bus control, grey	255 g	10

Distribution box, three-phase continuous, with three single-phase outlets, black couplers

Equipped with black couplers, the three-phase distribution box NAJDM53.B is designed for use in back-up power supply (UPS). With the distribution box, a continuous supply is branched into three single-phase outlets: L1, L2 and L3.

Product code	GTIN	Description	Weight	Package
NAJDM53.B	6418677706509	Three-phase continuous, three single-phase outlets, black	254 g	10

Distribution box, three-phase continuous, six single-phase outputs, black couplers

Equipped with black couplers, the three-phase distribution box NAJDM56.B is designed for use in back-up power supply (UPS). It directs a single-phase supply into six single-phase outlets: 2 x L1, 2 x L2 and 2 x L3.

Product code	GTIN	Description	Weight	Package
NAJDM56.B	6418677706523	Three-phase continuous, six single-phase outlets, black	315 g	10

Distribution box, with two single-phase inlets, two three-phase outlets, black and white couplers

Equipped with black and white couplers, the single-phase distribution box NGJDM36.WB is a combination box for regular and UPS-secured power supply lines. With the distribution box, two separate inputs (white and black couplers) are branched into single-phase outlets.

Product code	GTIN	Description	Weight	Package
NGJDM36.WB	6418677719561	Single-phase inlets, white/black, three single-phase white and black outlets	297 g	10

Distribution box, with 2x3-phase inlets, 2x3 single-phase outlets, black and white couplers

Equipped with black and white couplers, the three-phase distribution box NGJDM56.WB is a combination box for regular and UPS-secured power supply lines. With the distribution box, two separate inputs (white and black couplers) are branched into single-phase outlets L1, L2 and L3.

Product code	GTIN	Description	Weight	Package
NGJDM56.WB	6418677709340	Three-phase inlets, white/black, three single-phase white and black outlets	315 g	10

Distribution box, for converting single-phase supply installation to EnstoNet installation system

The NAJDM301 distribution box is intended for converting single-phase supply installation to EnstoNet installation system. It can be mounted on a mounting or junction box. The distribution box has two single-phase outlets with installation couplers and 160 mm wires for box connection.

Product code	GTIN	Description	Weight	Package
NAJDM301	6418677706462	Single-phase, two three-pole outlets, 160 mm wires	115 g	10
