## NGJKMF 46

250V MAX.20A IP20

### NGJKMF 46

#### Switch box, 4-pole continuous, 3x1-pol switch function, 3x3-pole light groups.

With the NGJKMF 46 switch box, a continuous 4-pole supply is branched into three outputs for 1-pole switch and three light groups. The box can be fixed, for example, to a installation plate with two pcs  $\phi$  3-4mm screws (c/c between holes 75mm). The box can also be fixed with 2 cable ties from the clamps on the box base. The third way is to use the so-called snap-on-pins, for which there is 4 pcs of fixing holes on the box base.
